DECLARES WOMEN ARE GOING TO VOTE

Secretary of the Navy Daniels Says "We May as Well Get Ready for the Inevitable."

By International News Service. SAN FRANCISCO, July 26.-In a speech studded with fine sentiment regarding woman and the home, Josephus Daniels, secretary of the navy, addressed the Women's Civic league here "We may as well get ready for the inevitable," said the secretary, "for

women are going to vote."

But he did not seem to be much

larmed at this, for he added "I am pursuaded that neither prin-cipalities nor powers, things present or things to come, learning, the ballot, nor anything can separate woman from vomanliness and from the making the home and the rearing of children. Therefore none of the dire predictions of evil will fall upon us when women

Secretary Daniels stated in the course his adress that he once advocated plan to determine whether men or women were better qualified to govern, by giving women the exclusive use of the ballot for a period of ten years, and at the end of ten years experts could then determine which sex were the better fitted to exercise the frau-chise. "But." said he, "I soon came to see that this was not practical or practicable."

To Overcome Sunburn, Tan, Freckles, Wrinkles

(From Outdoor Life.)

If you are freckled, tanned or sunburnt, dab a liberal amount of mercolized wax on the face and allow it to remain over night. When you wash off the wax in the morning, fine, flaky, almost invisible particles of cuticle come with it. Repeating this daily, the entire outer skin is absorbed, but so gradually, there's not the slightest hurt or inconvenience. Even the stubbornest freckles yield to this treatment. The underlying skin which the stubbornest freckles yield to this treatment. The underlying skin which forms the new complexion is so fresh and youthful-looking you'll marvel at the transformation. It's the only thing I know to actually discard an aged, faded, muddy or blotchy complexion. It is fine for a discolored neck. One ounce of mercolized wax, procurable at any drug store, is sufficient in most cases.

If sun and wind make you squint and frown, you're bound to cultivate wrinkles and crowsfeet, To overcome these quickly, bathe the face in a solution made by dissolving an ounce of powdered saxolite in a haif plut witch hazel.

The opinion prevails among Euro-peans in the capital that Yuan Shi Kal soon will be victorious. It is pointed out in some quarters, however, that the ability of Dr. Sun Yat Sen, the first provisional president of the republic, and his party, to create a rebellion and to spread disaffection among the troops in the principal cities along the lower Yang Tse river was not suspected three

PHUPUSED TREATY WILL BE MODIFIED

Nicaraguan Agreement Would Prevent Union of Central American Republics.

RESULT NOT INTENDED

Secretary of State Confers With Senate Committee on Foreign Relations.

WASHINGTON, July 26 .- Important modifications are to be made in the proposed treaty with Nicaragua, by which the United States would establish a protectorate over the southern republic. It has been discovered that by the terms of the agreement origi-nally outlined by Secretary Bryan, Nicaragua would have been prevented from ever joining with other republics to form a single Central American

This was not contemplated by the administration when the treaty was proposed; and the suggestion has created suspicion among other Central American countries. At a conference today between Secretary Bryan and members of the senate foreign relations committee, it was agreed that the original draft of the treaty should be changed, and definite statements be included in the compact, providing that it should not stand in the way of any future action Nicaragua might decide to take toward joining Central Amer-ican combination.

Asked by Nicaragua.

Secretary Bryan assured the com mittee today that the government was making no direct proposals to other Central American countries for similar treaties. The Nicaraguan situation was peculiar, he said, because that country proposed the negotiations and asked for the establishment of an American protectorate. In the case of other countries the United States is "hold-ing itself open" to treat with them, if the suggestions comes from their governments. The United States will not adopt an aggressive attitude, Secretary Bryan said, in attempting to negotiate any additional treaties.

The unexpected turn given to the Nicaraguan matter resulted from the fact that Secretary Bryan had incorporated in the treaty the general terms of the so-called Platt amendment relationship.
